

Teignbridge Plan Area - Residential Land Monitor Report at 31st March 2007

Parish Report

Residential Land Monitor Report for the Teignbridge Plan Area

1.0 Legislative and Policy Background

- 1.1 Section 13 of the Planning and Compulsory Purchase Act 2004 requires the Council to keep under review the matters which may be expected to affect the development of its area or the planning of its development.
- 1.2 Planning Policy Statement 12 (paragraph 4.8) requires that Local Development Documents must be based on a robust and credible evidence base. Policies should be founded on a thorough understanding of the needs of the area. For this purpose the Council should prepare and maintain an up to date information base on key aspects of the social, economic and environmental characteristics of their area to enable the preparation of a sound spatial plan meeting the objectives for sustainable development.
- 1.3 Planning Policy Statement 3 “Housing” (November 2006) (PPS3) places a requirement for the local planning authority to provide information on housing policy and performance. Key statistics in terms of housing delivery against targets are reported through the Council’s Annual Monitoring Report (AMR). These include performance against targets set in the Council’s Submission Core Strategy Development Plan Document (DPD) (November 2006) for regional and national targets, and National Core Output Indicators required for Local Development Framework monitoring. The AMR also includes a Housing Trajectory for the Teignbridge Plan Area (Teignbridge outside the Dartmoor National Park). The AMR is publicly available and is published on the Council’s website at www.teignbridge.gov.uk. These statistics are informed through monitoring housing permissions, starts and completions on land allocated on development plans and on windfall sites, advocated in PPS3 (paragraph 44). The details are held on the Councils’ Residential Land Monitor Database.

2.0 Residential Land Monitor Report – status and purpose

- 2.1 The Council publishes a report annually which includes statistics taken from the Residential Land Monitor Database. This serves as a technical document included in the Council’s evidence base to inform the preparation of the Teignbridge Local Development Framework 2001-2016 and other corporate plans and strategy documents, and as a material consideration to be weighed in the determination of development proposals.

3.0 What the Report includes

3.1 The Report covers the Teignbridge Plan Area (ie it excludes the part of the district which is situated within the Dartmoor National Park).

It is based upon the following instances where they are pertinent to the Devon Structure Plan period from 2001 to 2016, and where there is a **net increase** in the number of **permanent residential units**. Therefore, all figures stated represent the net increase in permanent residential units.

- All planning approvals for residential development
- All planning applications which have been approved for new residential development, subject to the applicants completing a Section 106 legal agreement
- Certificates of Lawful Use or Development for residential use
- Flats above shops where planning permission is not required
- Houses in Multiple Occupation in excess of 6 persons

3.2 The Report includes :

- Changes of use and conversions
- Redevelopment schemes
- Agricultural workers dwellings
- Permanent residential mobile homes
- Units of sheltered accommodation
- Affordable local needs housing on negotiated and rural exception sites

3.3 The Report identifies all new residential development of both “Greenfield” and “Brownland” sites. These are defined in accordance with PPS3 Housing Annex B; definitions as follows :

Greenfield Land which has not previously been developed.

This includes :

- Land that is or has been occupied by agricultural or forestry buildings.
- Land that has been developed for minerals extraction or waste disposal by landfill purposes where provision for restoration has been made through development control procedures.
- Land in built-up areas such as parks, recreation grounds and allotments which although it may feature paths, pavilions and other buildings, has not been previously developed.
- Land that was previously developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape in the process of time (to the extent that it can reasonably be considered as part of the natural surroundings).

To accord with PPS3 Annex B Definitions, for the purpose of the Residential Land Monitor Report “Greenfield” also includes: the conversion of agricultural buildings; orchards; paddocks; and in terms of outdoor recreational land – public open space/amenity land, playing fields and sports grounds.

Brownland Land which has previously been developed.

Previously developed land is that which is or has been occupied by a permanent structure, including the curtilage of the developed land and any associated fixed surface infrastructure.

To accord with PPS3 Annex 3 Definitions, for the purpose of the Residential Land Monitor Report “Brownland” also includes the conversion of existing buildings and land used for mineral extraction and waste disposal where provision has **not** been made for restoration through development control procedures.

3.4 The Report also distinguishes between new residential development on allocated land and windfall sites. These are defined as follows :

Allocated Land Land which has been specifically identified in a Local Plan for development for residential purposes. The Report includes sites identified in the “saved” adopted Teignbridge Local Plan 1989-2001, and previous local plans, outline development plans and town maps (County Development Plans) which have now been superseded. It also includes draft proposed new housing sites in the Initial Deposit Teignbridge Local Plan First Review 1995-2011.

Windfall Site Windfall sites are areas of land or buildings which have not been allocated for a specific land use (ie residential development) in the Local Plan.

3.5 The Report excludes :

- Planning applications which have expired
- Replacement dwellings
- Units of ancillary accommodation where the use is restricted by a planning condition
- Holiday accommodation where permanent residential use is not permitted
- Old Peoples Homes and Nursing Homes
- Houses in Multiple Occupation with less than 6 persons

Since the Report also takes account of revisions to approved housing developments any double-counting is eliminated.

3.6 Information for the Residential Land Monitor database is recorded on a continual basis. The Report is published on an annual basis reflecting the position of new residential development at 31st March each year.

3.7 A report detailing sites which remain allocated for new residential development but which do not have planning permission at 31st March 2007 will be published separately.

4.0 Format of Report

4.1 Residential sites are listed by parish. Within each parish the sites are listed in chronological order for each planning application, sorted by the type of site in the following order :

- **Allocated sites** (sites which have planning permission on land which was formerly allocated)
- **Large Windfall sites** (whole or part of windfall sites which are greater than 1 hectare)
- **Medium Windfall sites** (whole or part of windfall sites which are between 0.40 and 1 hectare)
- **Small Windfall sites** (whole or part of windfall sites up to 0.39 hectare)
- **Outstanding Section 106 Legal Agreements** (sites where the District Council has resolved to grant planning permission subject to the applicants signing a Section 106 legal agreement)

4.2 Sub-totals are provided for each site type and for each parish. A grand total is provided for the Teignbridge Plan Area.

5.0 Key to Printout :

Site Type	A = allocated with planning permission L = large windfall site M = medium windfall site S = small windfall site S106 = resolution to grant planning permission subject to signing of Section 106
Application Ref	Planning application reference number
Plot No	Site plot reference number
Address	Site address

Land Type Land type of the site
B = brownland
G = greenfield
M = mixed

<Original application>

Total Area (ha) Total site area of the **original** planning application

Total Approved (Net) Total number of dwellings approved (net) on the **original** planning application

The inclusion of these fields enables the user to calculate the dwelling density for the original approved planning application.

Units Completed

Pre Apr 01 Number of residential units completed on the site prior to 1st April 2001

<Units Completed>

Total Post Apr 01 Number of residential units completed between 1st April 2001 and 31st March 2007

Total PDL Of the total completed above, the number of units completed on previously developed land

Total Non PDL Of the total completed above, the number of units completed on previously undeveloped land

Units started Number of residential units which have been started (ie are currently under construction)

Units not started Number of units left (ie unimplemented) on each site

NB. The sum of the units completed Pre April 01, Post April 01, started and not started **do not** equal the total number of units originally approved. This is due to applications being partially superseded.

Teignbridge Plan Area - Residential Land Monitor at 31st March 2007

Register of net dwellings completed, under construction, with planning permission or subject to an outstanding Section 106 Agreement
