

**Don't have access to the internet?
Don't know how to use a computer
or a tablet?**

Get access and help to do it online.

Local libraries offer free wifi, and 2 hours access to computers .

It's free to library members; there's a charge to non-members.

The library staff can help you – they will try to give general guidance as time allows, but they do not complete online forms for you. They can also direct you to other services such as computer learning courses and online learning.
