

List of Ecological Consultants (Planning Advice Note 7.4)

It is recommended to read our advice note entitled **Ecological and Geological Reports (Planning Advice Note 7.3)**. Applicants and agents are encouraged to discuss proposals with the biodiversity officer prior to a formal submission. For large and complex schemes, applicants are advised to employ a professionally qualified ecologist from the outset.

This list is not exhaustive and is provided to help you find a qualified, licensed and experienced contractor. Inclusion on this list does not constitute a recommendation by Teignbridge District Council and you must satisfy yourself that any contractor you choose is suitable for your purposes.
